

*The road to recovery can be difficult. It can be painful. It can be lonely. It's a road that tests our patience, our relationships, our faith and our fears. And no matter how far we have to go, it's longer than we'd like.*

*So the fact that Sturgis Hospital is nearby is just one reason it is the perfect place for you to get healthy.*

*There are many more.*

At Sturgis Hospital, we are committed to providing high quality healthcare services with a personal, caring touch. While you are here, our physicians, nurses and other staff members will work with you and your family to make your experience at Sturgis Hospital as pleasant as possible!

#### **QUALITY HEALTHCARE**

At Sturgis Hospital, you will find qualified, caring health professionals. From the moment you enter, throughout your stay, and upon your discharge, you will be treated as our guest. As part of our Mission to provide "ever-improving quality health care," we believe in the philosophy of continuous quality improvement.

Sturgis Hospital abides by the standards and guidelines as set forth by the following agencies:

- Joint Commission on Accreditation of Healthcare Organizations
- State of Michigan, Department of Consumer and Industry Services
- College of American Pathologists
- American College of Radiology

CLOSER.**

**ADVANCED TECHNOLOGY**

Big-city medical centers aren't the only places that have the latest and most sophisticated diagnostic and treatment technology. They just spend a lot more money advertising it to you.

Sturgis Hospital offers you the most up-to-date technology you're likely to need. From the latest in X-ray, ultrasound and nuclear medicine technology ... to advanced diagnostic imaging such as CT, PET and MRI ... to the most modern tools for diagnosing cardiopulmonary and sleep disorders ... it's all right here, in your own backyard.

**MEASURABLE QUALITY**

There are many ways people judge the "quality" of a hospital. When it comes to what we believe are the most important ones, we measure up extremely well:

- A leading healthcare consulting firm ranks Sturgis Hospital as one of the nation's top-100 community value hospitals.
- We're accredited by the country's most-respected accrediting organization.
- Our medication verification program won a Michigan Governor's Award.
- We're a Michigan Hospital Association Keystone facility, helping set the standard for patient safety.
- In many quality measures by Medicare and HealthGrades, Sturgis outranks some of the region's big-city medical centers.

But the measure we're proudest of comes from our patients. In satisfaction surveys conducted by an independent survey firm, patient satisfaction scores are regularly over 95% for many areas of the hospital.

**FRIENDS AND  
NEIGHBORS**

Of course, a hospital is just a building, and technology is just machines. The quality of an institution's healthcare is determined by the people who work for it. And it's our people who make us a great hospital.

We have the same training you'll find in a big-city hospital ... and, in many cases, more experience. With one big difference. We're your friends. We're

your neighbors. We're people who live in, invest in and care deeply about the Sturgis area. We share your values, your hopes, your dreams and your concerns. Chances are, we'll have a few friends in

common. All of which makes it nearly impossible for us to think of you as just another patient number.

After all, there's a difference between "care" and "caring." This is a hospital where you'll find both. Right here ... close to home. And since the road to recovery ends at home, wouldn't you want to start it as close to home as you can?
